CLIFF

2.5mm and 3.5mm Mono and Stereo Jack Sockets

The **CLIFF®** range of 2.5mm and 3.5mm Jack Sockets are available with unswitched, switched or make contacts and with a choice of solder tag or PCB mounting versions. S6 sockets are produced in accordance with DIN dimensions and are designed for use with our P5/P6 plugs. Many products of Far Eastern origin have Jack Plugs that vary in tip size and we therefore suggest using either our JY series or S6 Special 'C' Contact Jacks, for these particular applications.
