Qoltec AGM battery | 12V | 9Ah | max 135A

Product code: 53031

AGM battery is intended for use in emergency power systems and in other situations where the battery works cyclically.

Stable energy source	Performing daily activities you certainly use devices that need current to work efficiently. Some of them draw energy from the network, other devices like electronic toys, quads, UPS or medical equipment need a battery to work. We offer a wide range of solutions to provide them with a stable and safe source of energy. Check out our AGM batteries and choose the variant best suited to your needs.
Safe and maintenance free	We design batteries according to the latest AGM technology, which allows them to work longer thanks to the low self-discharge. Feel safe - their advantage is tightness, resistance to high temperatures and various types of shocks. Equipment powered in this way will work without fail for a long time. Qoltec AGM batteries provide up to 10 years of maintenance-free operation.
One battery - two options for operation	Wondering where to use our battery? As a permanent energy source or emergency power supply? The answer is: in both situations, it works perfectly. You can treat it like a battery, which is charged and then powers your equipment. In case of a sudden power outage or power surge, you ensure the safety of connected devices.
Reliability	You get a full guarantee of reliability. You have the possibility of safe battery operation in any position. You want your equipment to work at full capacity without restrictions - now you can be sure that it will receive the needed dose of energy.
Confidence confirmed by a warranty	You value the quality of purchased equipment so our projects and solutions are focused on meeting your expectations. AGM Batteries are covered by 24 months warranty.
Technical data	

Producer	Qoltec
Rated capacity	9 Ah
Voltage	12 V
Max. Discharge Current	135 A
Loading the buffer	13.5 V - 13.8 V
Cyclic loading	14.4 V - 15.0 V
Connector	Fast-on 250 (T2)
Service life	10 years (when working with an uninterruptible power supply UPS)
Usage	Alarm systems and monitoring UPS Electronic toys Motorcycles, quads, scooters, etc. Forklifts, golf carts, wheelchairs Solar battery systems Medical equipment Emergency lighting
Dimensions	152 x 94 x 65 mm
Net weight	2,3510 kg
Gross weight	2,4000 kg
Warranty	24 months
EAN code	5901878530314
